## PRODUCT INSTRUCTION MANUAL

**Product Feature:** The product consists of two parts: (1) finished fountain (2)water pump  
(Please read instruction first).

### Instructions for use:

- 1.Unpack the product.Read this instruction sheet before proceeding.
- 2.Familiarize yourself with the pump. The pump speed is controlled by the switch located at the front of the pump. The speed is indicated by plus(+) and minus (-) sign. To increase the speed, moves to each speed level. At its highest speed level, the swith will cease to move any further.
- 3.Place the product on a flat surface, remove plastic bag from packaging. (Please cover a soft cloth in case of the damage caused by the humidity)
- 4.Insert the pump into the water tube inside, place the pump into the fountain carefully.
- 5.Fill inside with tap water to 1/2" from the edge of back opening. we recommend to use distilled water to prevent mineral build up. Make sure there is no solid impurity in the water, or it will affect the pumps work.
- 6.Put the plug of pump into the power socket, If install properly, water will come out of spraying nozzle soon,

### Safety Guidelines:

1. Read all instructions and safety guidelines thoroughly. Failure to follow guideline and instructions could result serious bodily injury and / or property damage.
2. Do not pump flammable liquids such as gasoline /fuel oil with the fountain pump.
3. Make sure the water tube is properly connected with the pump, and do not crimp the tube otherwise water could not come out or come out only with small amount.
4. During operation, the area around the pump would be covered with water. Take care when handling the pump; do not pull pump out of water (when running) by the power cord, and do not move the product when running.
5. Unplug pump and power before servicing, cleaning or moving.

### Cleaning and Maintenance:

1. If after time the pump starts to lose power or stops working you should check for the build up of sediment or scale in the bottom of the pump housing
2. Remove the impeller or any dirt and scale, which has built up and close the case back up.
3. If the tube comes off please insert in.
- 4.Wash the water base weekly incase of any build up or any sediments.
